

Animal Safari

This project teaches children to learn about incredible animals that live worldwide. We will be exploring various habitats and comparing the animals that live there. We will learn what animals need to grow, survive and stay happy and healthy. We will explore animal features and find out how they survive in the wild.

We will also be looking at the theme moving on. We will be reflecting on our fun year in reception, looking at what we have learnt. We will meet our new teachers and explore our new classrooms ready for next year.

What animals are carnivores?

What is a mammal?

Why are tigers stripy?
